

Environmental Policy Statement

Leegal Contracts Ltd being a company that has recognised the need to manage its impact on the environment, is committed to meeting customers' expectations for an environmentally sound service.

Care for the environment is a consistent factor of our operations, as well as the benchmark of our daily work. All activities are carried out with regard to the limits that nature can accept in the form of resource consumption and pollution.

In order to achieve this, the company is committed to:

- Complying with the requirements of current applicable Environmental Legislation.
- Ensuring effective management of the environment by providing adequate resources for implementing and operating an Environmental Management System.
- Setting and reviewing objectives and targets to ensure continual improvement.
- Seeking to reduce consumption of materials and the minimisation of waste in all operations and promote reuse, recycling and the use of recycled materials where practicable.
- Developing staff awareness of environmental issues through effective education and training, helping ensure environmental protection measures are maintained and improved.
- Controlling, preventing and seeking to minimise the level of emissions/pollution in all areas of the organisation.
- Ensuring others who undertake work for the organisation, such as contractors, adhere to the management standards and controls as laid down in the company Environmental Management System.
- Monitoring progress and communicating environmental performance information as appropriate.
- Working closely with Clients to reflect their environmental concerns and requirements into existing practises.
- Communicating the policy to all company personnel and making it freely available to customers, the general public and other interested parties.
- Additions to the general policy document will be made from time to time in the light of new legislative requirements or organisational change.

Signed

David Gallagher- M.D
